Join us to learn about the SHPE South Bay LA Professional Chapter, take a tour of our Raytheon labs, and get career development advice from Raytheon senior manager Juan Morales. There is limited capacity and RSVP is required no later than Monday, July 22nd. Be seen by Raytheon hiring managers and upload your resume (optional).

Lab Tour (optional): 5:00-6:00pm
Meeting 6:00pm-7:30pm

Raytheon South Campus
2000 E. El Segundo
El Segundo, CA 90245

Juan Morales is a Senior Manager in Systems Engineering within the Systems Security Department. He brings over 18 years of experience at Raytheon most recently supporting Space Systems proposals as the Deputy Chief Engineer. Previously, Juan was the Deputy Chief Engineer for the Space Development Programs responsible for technical oversight of robust subsystem designs. Prior to this role, Juan served as the Deputy Technical lead to multiple space and airborne programs. Juan holds a BS in Electronics Engineering Technology from DeVry University, Pomona, an MS in Electrical Engineering with an emphasis in RF Communications from California State University, Long Beach, an MBA from California State Polytechnic University, Pomona, and is a Systems Engineering Technical Development Program graduate.
